

Winter is coming :) and that means it's home time — the season of warm knits, hot drinks and quiet evenings of needlework. I offer you to sew warm home boots of felt with a knitted top for yourself or as a gift.

Materials: felt, yarn, spokes

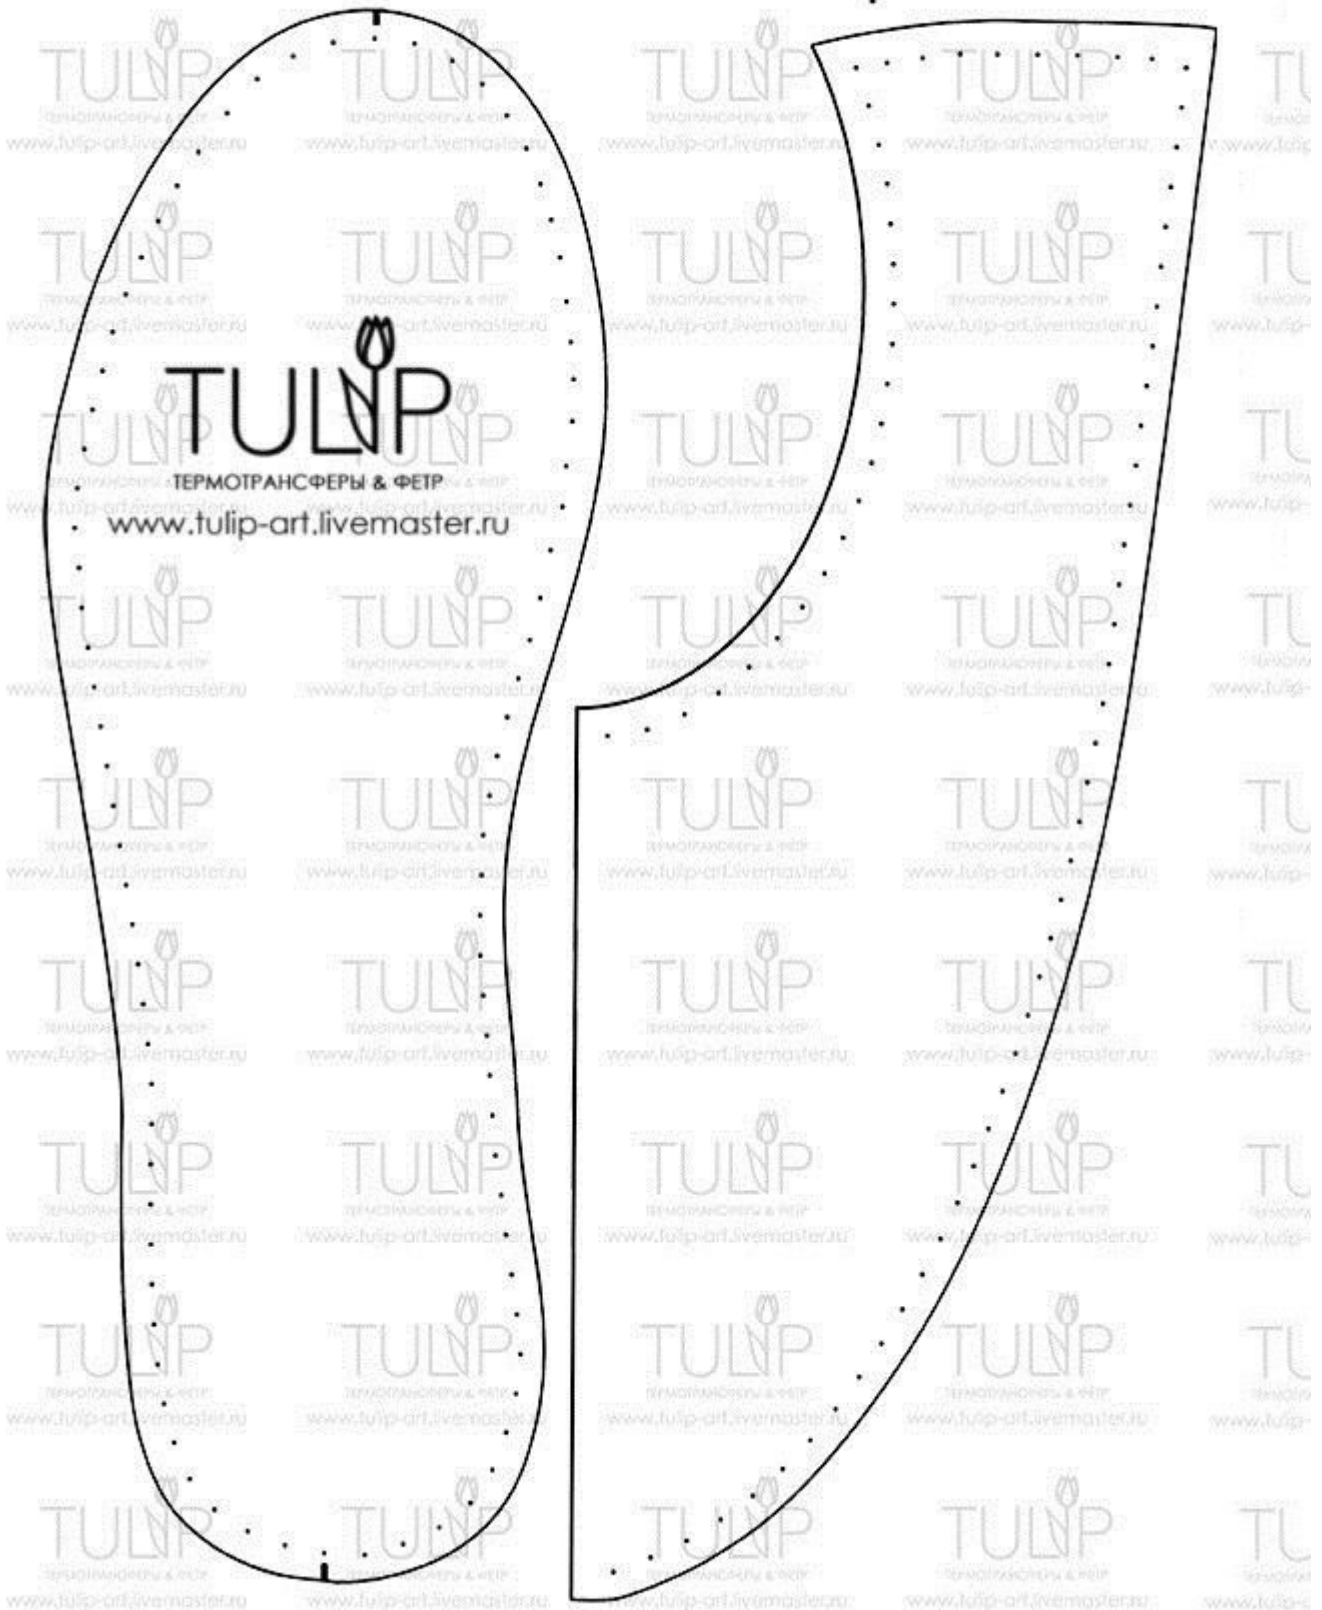

EXECUTION

1. Felt of 2 mm, 22 cm x 90 cm.
2. Thick yarn or knitted tape.
3. Hook, knitting needles of suitable thickness.
4. A large needle with a large eye.
5. A doming block with punches, hole puncher or awl, scissors, a tailor's marker.
6. Optional — thick insoles.

And the pattern. If you print it in 1:1 scale, you get slippers of size 38-39. If you want a different size, change it manually.

Home DIY Boots from Felt with Knitted Top

Transfer the pattern on felt with the marker.

Cut out the holes with the puncher. The thicker the yarn, the larger the holes.

tulip-art.livemaster.ru

Assemble the boots. You need a hook.

tulip-art.livemaster.ru

Start with the back seam. Join the holes at the top back and pass yarn through them with the hook.

Go on:

Pass the second loop through the first one:

Go on:

Repeat:

That's what you get at the back:

If you knit with hooks, use them to make the boot top, I can't so used knitting needles.

Make loops and pick them onto 3-4 needles:

Here's a moment of free creativity — knit in a circle the way you like: braids, jacquard, stripes, whatever you want or can. I ribbed 1:1 alternating some colours of knitted tape.
